Principal's report for 2015-2016 school year presented by Dr. Williamson

Our students are back in class and our educators are once again pouring knowledge into the beautiful minds. We want to take a moment always to say "Thank You" to Dr. Williamson and her staff for their dedication and commitment to our Arrows. This will again be a challenging year as we grow into the school we wish to become. Preparing our students for the future, I ask each member to be vigilant in their duties as members of Arrow Academy of Excellence. Please submit your suggestions for a new Board member to be added during this 2015-2016 term. Remember we are seeking someone who will bring their specific expertise, fundraising ability and a commitment to the growth of our students and the school. Over the next (3) months we will be task with funding the actual cost of adding our 3rd grade class, the cost is expected to exceed \$40,000 overall. Therefore, we are seeking any and all grants, sponsorship and additional funding sources that maybe available.

Barbara Conway,

AAE Board Chair
