Mission

We prepare, develop and launch (K-3) learners on a trajectory for college and career readiness, to compete globally and contribute locally. By focusing our students on their responsibilities to the environment, the economy, and the social contexts in which they live, we empower them to discover and achieve their dreams. Our school's ultimate aspiration is to develop community members who demonstrate strong skills of curiosity, resiliency, reflection, and collaboration through the capacity to meet state and national standards.
